

ENERGY DEREGULATION - RESIDENTIAL / NON-PROFIT FUNDRAISING

Energy Deregulation has now provided consumers the ability to save money on their residential electric and natural gas while helping the environment by using a minimum of 20% more renewable energy than the state mandates. If you live in most areas of Connecticut, Illinois, Maryland, Massachusetts, New Jersey and New York, Viridian can help you save money. Your savings come with easy enrollment, no long-term contracts, no switching fees, no interruption of services and no additional fees. Delivery and maintenance will continue to be the responsibility of the local public utility. The only difference you will notice is a less expensive bill.

Please contact Andy at 1-800-606-6762 x 102 to help you enroll or click on the link below to go directly to our Viridian site with extensive information on Viridian, markets we service, rates and the amazing impact Viridian and its energy users have made on our environment.

Viridian Fundraising Program offers an innovative way for organizations to raise funds without over-burdening their members. The program is simple and is a true win-win situation enabling charitable organizations to raise funds without ever asking for money.

How You Earn Money:

By signing up a fundraising entity, you are able to help members of your organization save money over time by switching their energy supplier to Viridian. As they do, you earn money for your organization. From day one, you earn a residual check each and every month for every active customer you refer. All your members have to do is use greener more affordable electricity and natural gas at their home. It's that simple. You get to help your members and Associates make a better energy choice for themselves...they SAVE money over time all while helping you EARN money!

Many types of charitable organizations and fundraising entities can benefit from the Program. Some of the ones that have benefited through working with Viridian include:

- Churches and Synagogues
- Private and Religious Schools
- Sports Teams
- Charities and Foundations
- Volunteer and Community Service Organizations
- Parent Associations
- School Groups

In order to qualify for program participation, your organization must have a membership base that currently receives electric or natural gas service in one of our active markets.

Enrollment is easy. For more information about our exciting Fundraising program and its benefits, please contact Andy at 1-800-606-6762 x 102.
