

AMG provides our clients with extensive industry experience and leading edge technology to ensure reliable and seamless transaction processing. AMG takes the time to understand your company's needs, enabling our experienced professionals to provide the right solutions for your organization. Our wide range of processing platforms and product offerings provides our customers with the most flexibility and effective methods of accepting payments at the point of sale.

At AMG we believe an educated customer is the best kind of customer. In line with our company mission, AMG provides all clients and potential clients with full disclosure regarding our products and solutions. We will speak in non technical jargon and if you don't understand something, **JUST ASK US**. It is important to us that our clients fully understand how we will work together and make their relationship with AMG a positive experience.

Credit Card Processing

In today's business environment, accepting credit cards as payment for goods or services is no longer an option. AMG ensures that our clients are taken care of every step of the way. From educating a potential client on the many aspects of Merchant processing to providing 24/7 personalized customer support, we are always available to answer your questions. The first step in the AMG process is to **LISTEN**, listen to what the merchant really needs. Our experienced consultants will strategically align those needs with our menu of services and recommend the right solution at the right price point. Whether you are a new company just starting out or an experienced company of 20 years, you will benefit from AMG's commitment to excellence and dedication to our clients.

Conducting business over the Internet has never been easier. The ability for merchants to reach customers all over the globe has enabled small companies to grow at an incredible pace. To ensure an online experience at the highest level you need a merchant services provider that can provide a reliable and secure gateway to execute transactions. AMG has partnered with leading technology companies to provide the optimal solution for your internet needs.

Whether you are a local retail shop or a multi location restaurant chain, your customers will always appreciate the option to just swipe their credit card rather than having to go to an ATM to take out money. According to the U.S. government, nearly 75-percent of American families have one or more credit cards and many consider them their preferred method of payment. The fact is, if you don't accept credit cards your customers will likely go to someone who can.

Check Processing

Are you hesitant to accept checks from your customers? Don't let bounced checks negatively impact your financial situation. It is now possible to collect money from your check paying customers in one banking day, no matter where they bank in the United States (assuming they have sufficient funds). Gone forever are waiting days for a check to arrive, manually processing check payments and waiting for the check to clear. Improve your cash flow today.

Gift and Loyalty Cards

Paper gift certificates and hole-punch loyalty cards are a thing of the past. Today's savvy entrepreneur understands the power that gift and loyalty cards provide and they are using them to drive additional revenue to their business. Loyal customers will be empowered to market your business as they purchase gift cards for their friends and family. You can show your appreciation to those same loyal customers by rewarding them with a company loyalty card. The increased traffic and corresponding increased revenue will positively impact your bottom line.

Solutions for Associations

Associations provide their members with the ability to leverage their critical mass to ensure fair pricing for goods and services. AMG fits perfectly into this model. By offering transparent **INTERCHANGE PLUS** pricing, your affiliate network will immediately recognize the value provided by AMG. We recognize that all industries are not the same and we have a proven ability to evaluate a situation, strategize options and implement the right solution. We look forward to earning your business and developing a long lasting relationship.

Small Business Solutions

AMG takes great pride in our small business success stories. Our hands on customer focused approach, provides small business owners with the confidence and tools they need to succeed. AMG brings value added service and real world experience to every client. Small business owners know that with AMG, they will always be treated with the respect they deserve and provided with the quality of service they expect.
