

NormAndy Financial Services is a cost savings consulting firm that helps businesses, commercial property owners, manufacturers and non-profits maximize return on investment, recover wasted capital expense and insurance overpayments, bring lost revenue back in-house, and much more.

NormAndy is backed by a powerful network of highly-qualified professional financial analysts and service advisers, engineers, accountants and IP attorneys.

We analyze over one hundred risk free programs and services at the local, State and Federal levels to determine which of them your company might qualify for to receive stimulus money. Some of these include energy conservation tax deductions, commercial property, hiring and manufacturing incentives.

Our business model is client focused with our core strategy being to save and secure a businesses money. Money that is liquid and available to put back into growing their business!

It costs the business NOTHING to have NormAndy determine the potential to:

- Secure stimulus money at the local, State and Federal levels
- Obtain tax deductions for energy conservation and green building initiatives
- Acquire commercial property, manufacturing and hiring incentives
- Recover wasted capital expense and insurance overpayments
- Identify new financial resources that recaptures lost revenue or secures new financial resources

NormAndy can provide industry-specific expertise under one roof. The result is a holistic approach to expense reduction and cost recovery that's relationship focused, strategic and financially profitable for the business. There is no front-end cost and a percentage of any "new-found monies" secured pays for NormAndy's services. Simply, NormAndy brings a no risk and high reward opportunity to business owners, commercial property owners, manufacturers and non profit organizations.
